SUMMARY

Computer Science student at the University of New Brunswick (GPA 4.0/4.3) with four co-op terms totaling nearly two years of experience in software engineering and security. Skilled in TypeScript, Python, Java, Ruby on Rails, and Angular, with production experience building data pipelines for 200+ enterprise tenants and resolving a high-severity bug that reduced dashboard load time by 83%. Recognized on CBC National News for teaching AI/ML to high school students (6M+ viewers), with additional experience in Azure application security and healthcare software serving 1,500+ professionals.

EDUCATION

UNIVERSITY OF NEW BRUNSWICK

Bachelor of Computer Science

Minor in Chemistry

Cumulative GPA: 4.0/4.3; Dean's List 2024-2025

Fredericton, NB

May 2027

SKILLS

Frameworks: React, Angular, Node.js, Ruby on Rails

Languages: Java, Python, C, Ruby, TypeScript, JavaScript, SQL, Bash, HTML/CSS

Tools: Git, Docker, Kubernetes, AWS, Snowflake, dbt, Airflow, Tableau, Linux, Splunk, Jira

WORK EXPERIENCE

INTROHIVE

Associate Software Engineer

Fredericton, NB

Jan 2026 – Aug 2026

- Built a Snowflake, dbt, and Airflow data pipeline delivering email and calendar interaction analytics to 200+ enterprise tenants across 6 global regions
- Fixed an 8-month production bug in dashboard filtering, cutting load time by 83% for datasets up to 253K values
- Resolved 4 customer-reported data-integrity defects and backfilled 2.8M+ records across 45+ environments

J.D. IRVING, LIMITED

Security Analyst Intern

Fredericton, NB

Jan 2025 – April 2025

- Developed and deployed a Python script on Azure integrating Imperva and Qualys SSL APIs, automating monthly domain security assessments and cutting a 10-hour manual process to minutes
- Independently led a company-wide phishing simulation across 20,000+ employees, developing all email content and Powershell deployment scripts, reducing click-through rates by 40% and presented findings to senior leadership
- Assessed 30+ applications by identifying vulnerabilities and driving remediation within a 48-hour window-hour turnaround

INTROHIVE

Associate Software Engineer

Fredericton, NB

Sept 2024 – Dec 2024

- Led an Angular 16 to 17 migration across production codebases, verified by ~4,300 passing tests with a zero-rollback deploy
- Rolled out Snowflake data ingestion to all production customers, coordinating changes across 42 Kubernetes clusters
- Fixed customer-impacting bugs in Rails and JavaScript and patched 7 high/medium-severity CVEs in Node.js and Ruby

POPULUS GLOBAL SOLUTIONS INC.

Software Developer Intern

Fredericton, NB

Sept 2023 – Dec 2023

- Developed a web-based prescription management system in Java, TypeScript, SQL, and Angular, eliminating prescription errors for 1,500+ healthcare professionals across Belize and Barbados
- Triaged and resolved 100+ Jira tickets, cutting the ticket backlog by 30% and saving 50+ hours of development time
- Integrated JUnit from scratch and authored unit tests across the codebase, boosting code coverage from near-zero to 80%

TEACHING EXPERIENCE

UNIVERSITY OF NEW BRUNSWICK

Teaching Assistant

Fredericton, NB

May 2024 – Dec 2025

- Designed course assessments and supported 200+ students across 6 core CS courses (Java, C, databases) through labs, office hours, and tutoring, earning a Faculty Teaching Award for driving a 20% improvement in course grades

STEMBLOCK

Robotics & Programming Coach

Fredericton, NB

Sept 2025 – Dec 2025

- Built and delivered a full robotics and Python curriculum at two Fredericton schools as sole instructor, guiding 40+ beginners to complete autonomous robot builds at a 92% competition rate

UNIVERSITY OF NEW BRUNSWICK

Instructor and Course Developer

Fredericton, NB

June 2023 – Sept 2023

- Featured on CBC National News for teaching an AI and ML Python course to high schoolers, reaching 6 million+ viewers
- Led workshops for 150+ students on HTML, CSS, and JavaScript, delivering 20+ web projects with 95% positive feedback

PROJECTS

FROGGO'S DAILY FACTS

July 2024

- Built a Python Discord bot to deliver daily facts, support configurable channels, and generate frog-themed content
- Published on top.gg, gaining 100+ users with a 5-star rating within the first month of release
- Maintained 99.9% uptime by deploying on AWS EC2 with automated restart protocols

ACTIVITIES

UNB CYBERSECURITY CLUB

Member

Fredericton, NB

Sep 2024 – Present

- Competed at CyberSci Regionals 2024, placing 3rd among 11 teams from top Atlantic Canadian universities
